CITIZEN CHARTER

Foreword

Consequent of renaming the Department as Agriculture and Farmers Welfare Department, the State Government is taking many key initiatives for safeguarding the welfare of farming community and economic development of Tamil Nadu. As decided by the **Hon'ble Chief Minister of Tamil Nadu**, an exclusive Agriculture Budget was presented for the first time in the history of the Tamil Nadu Legislative Assembly after having detailed Consultative Discussion with farmers, representatives of Farmers Associations, traders, exporters, scientists, experts and other stakeholders in the year 2021-2022. Subsequently, this year also, the second separate Agriculture Budget has been presented in the Tamil Nadu Legislative Assembly.

To mention a few important schemes, Kalaignarin Anaithu Grama Orunginaintha Velaan Valarchi Thittam, Chief Minister's Dry land Development Mission, Organic Farming Development Scheme, Traditional Paddy Varieties Conservation Mission, Palmyra Development Mission, Millets Mission, enhancement of procurement price for paddy, declaration of Special Production incentive for Sugarcane, Chief Minister's Nutritive Vegetable Garden Scheme, Chief Minister's Scheme of Solar Powered Pumpsets, Electric motor pumpsets with subsidy, Renovation of existing Uzhavar Sandhais and establishment of new Uzhavar Sandhais etc., announced in this Agriculture Budget are very much appreciated by all farmers.

The Government of Tamil Nadu has solemnly taken a decision to implement all these schemes in a very transparent manner. The beneficiaries are selected through Uzhavan mobile app and monitored to ensure that benefits reach the targeted farmers.

In this regard, a **Citizen Charter, 2022-23** has been drafted encompassing the schemes implemented by Department of Agriculture & Farmers Welfare. This Citizen Charter is also made available in the Government website for easy access.

I fervently hope that this Citizen Charter is immensely useful for farmers who are in need of Government assistance for increasing the area and production and augmenting their standard of living.

M.R.K. Panneerselvam

Minister for Agriculture and Farmers Welfare

SCHEME No:7	
Name of Scheme	Chief Minister's Scheme of Solar Powered Pumpsets
Funding Pattern	Union Government - Ministry of New and Renewable Energy (MNRE) fund - 30%, State fund - 40%
Project Area	All districts (except Chennai)
Objectives	<ul style="list-style-type: none"> To ensure electricity requirement of the farmers for pumping water for irrigation. To minimize the maintenance and recurring cost of the irrigation water pumping system to the farmers. To get sustained agricultural production.
Details of Works	Provision of Off-grid Standalone Solar Powered pumping System to the farmers for irrigation purpose.
Benefits offered (Subsidy)	<ul style="list-style-type: none"> 70% Subsidy (Ministry of New and Renewable Energy, Union Government 30% and State Government 40%) and Farmer's contribution is 30%. Farmers need not register with Tamil Nadu Generation and Distribution Corporation (TANGEDCO) for free power connection to avail Solar pumpset under the scheme. Farmer availing the Off-grid Standalone Solar Pumpsets and has already applied to the TANGEDCO power for free connection, then the farmer need not forgo the seniority and when the farmer's turn for free power connection comes under normal priority, the solar pumpset could be connected to the grid.
Eligibility	<ul style="list-style-type: none"> All farmers with reliable water sources for irrigation without electric power connection. Solar Powered Pumpsets under this scheme will be provided to new irrigation wells created in "safe firkas" only. However, existing standalone diesel pumpsets can be converted into Standalone Solar Powered pumpsets in other than safe firkas. Farmers shall furnish undertaking to connect the Solar Powered Pumpsets with the micro irrigation system. The farmers who remit their contribution amount will be provided with Solar Powered Pumpsets on first come first serve basis.
Time-limit for Implementation	Will be completed within the financial year.

4. TAMIL NADU AGRICULTURAL UNIVERSITY

Tamil Nadu Agricultural University performs versatile functions in Agricultural Education, Research and Agricultural Extension for the benefit of stakeholders. It offers education from diploma to doctoral programmes to develop manpower to cater to the needs at various levels in agricultural and allied sectors. It also supports the farmers and rural youth to enhance their livelihood by mastering agricultural technologies through open and distance learning and agribusiness development programmes. It develops and promotes state-of-the-art technologies that are suitable for the local needs to improve the production and productivity in agriculture. It produces and distributes key inputs like seeds, bio-fertilizers, bio-pesticides, crop boosters besides providing services for soil and water testing. It is also a pioneer in the frontier agricultural technologies like Precision farming, Remote sensing, Nanoscience, Climate-resilient agriculture, Drone applications, Post-harvest handling and Processing. It strives hard to improve the quality of every activity to achieve national and international excellence. The various services offered to the students, farming community and other stakeholders are given below:

4. 1. Stake holders

1. Farmers
2. Under-Graduate, Post-Graduate, Doctoral and Diploma students of agriculture and allied subjects
3. Teaching and Non-Teaching staff of Tamil Nadu Agricultural University.
4. Farm input producers and distributors
5. Agro-based entrepreneurs
6. Extension personnel of the development departments
7. Policy makers at State and National level
8. Collaborators from National and International organizations.
9. General public in need of capacity building in agriculture, horticulture, food and nutrition.

4.2. Services offered by University

The Tamil Nadu Agricultural University provides the production technologies related to agriculture and agri-based activities to the farming community.

4.2.1 Agricultural Education

The University offers Undergraduate, Postgraduate (M.Sc. and Ph.D.) courses and Diploma courses in agriculture and allied subjects through its colleges.

4.2.7.7 Soil and Water sample analysis

The University provides services to farmers for analyzing soil and water samples for macro and micro nutrients and physical parameters. Also, services are provided for irrigation water quality appraisal. The analytical charges are as follows:

Table: 4.2.7.7. Analytical charges

Details	Fee per sample (Rs.)
Soil	
Soil pH & EC, texture, calcareousness and Available N, P, K analysis (Farmers)	100.00
Soil Micro nutrients analysis(Fe, Cu, Zn and Mn)	250.00
Soil Organic carbon analysis	90.00
Soil Boron analysis	200.00
Soil Available S, Ca, Mg analysis (*Rate per element)	150.00 *
Soil textural analysis (International pipette method)	900.00
Soil Bulk density and Particle density analysis (Cylinder method)	250.00
Soil available moisture analysis (Pressure plate apparatus)	600.00
Soil Bulk density, particle density, Water holding capacity and volume expansion analysis(Keen Rakzowski box method)	1800.00
Irrigation water	
Water pH and EC analysis	60.00
Water Na, K, Ca, Mg, CO ₃ , HCO ₃ and Cl analysis	240.00
Technical Products	
DSSIFER CD	150 .00
VDK CD	120.00

A total of 4529 nos. of soil samples and 1112 nos. of water samples were analyzed for their physico-chemical characteristics and analytical advisory services were provided based on the analytical results. In addition, 83 nos. of waste water samples were analysed for the parameters related to environmental pollution.

4.2.7.11. Price Forecast

Domestic and Export Market Intelligence Cell (DEMIC) functioning in the Directorate of Centre for Agricultural and Rural Development Studies (CARDS), generate and disseminate price forecasts for major agricultural and horticultural crops grown by farmers in Irrigated Agriculture Modernization Project (TN-IAMP) basins of Tamil Nadu. Under the scheme, price forecast for 14 major crops including cereals, Pulses, Oilseeds, fruits, vegetables, spices and condiments are disseminated to the farmers. The market advisories are given well before sowing and before harvest of these crops, which help farmers to take appropriate sowing and selling/storing decisions on a scientific basis. These advisories are disseminated through print and electronic media well in time. In 2021-22, DEMIC has provided 11 Pre-sowing market advisories and 16 pre harvest advisories.
